LIVING FUTURE
SEATTLE CENTER PAVILION
APRIL 25-27, 2007

details and registration at:
www.cascadiagbc.org
www.aiaSeattle.org/wmig2007/wmig2007.htm

presented by:
The Cascadia Region Green Building Council
AIA Seattle Committee on the Environment.

Get ready for two and a half days of exciting dialogue that will attract leading minds in North America to address climate change and the path to a future of Living Buildings. LIVING FUTURE, Seattle's regional green building conference, will explore how to reduce or mitigate climate change. This "unconference" features examples of the best sustainable regional projects, building tours, a bookstore, a fellowship awards program, a design competition and much more.

KEYNOTE: ED MAZRIA, FAIA
APRIL 25, 2007 - doors open at 5:00pm
Co-sponsored by the City of Seattle Urban Sustainability Forum

5:30 PM "Resuscitating a Dying World"
Ed Mazria is an internationally recognized architect, mastermind of the 2030 Challenge and author of 'The Passive Solar Energy Book'. He will explore the science behind climate change and the critical role the design and building community must play in addressing it. www.architecture2030.org
