

Eugene Branch/Cascadia December 2008 Meeting

Cascadia Branch meetings are an opportunity to learn and share information and ideas on green building and sustainable design, and foster interaction in the design community. Meetings are the second Tuesday of each month. If there are topics you would like to hear more about or share, please contact us.

Cascadia meetings are free and open to the public.

CASCADIA REGION GREEN BUILDING
COUNCIL/EUGENE BRANCH

Tuesday December 9, 2008

Noon- 1:00 p.m.

Tykeson Room

Eugene Public Library

Eugene, Oregon

**For more information contact:
Scott Stolarczyk, AIA, LEED AP

Natural Ventilation in Buildings

G.Z. Brown will introduce the fundamentals of natural ventilation, types of ventilation and strategies for ventilating buildings. He will cover the architectural implications of various strategies and tools that can be used for both designing and evaluating buildings. To close, Professor Brown will show examples of successful uses of natural ventilation, emphasizing important characteristics of each project.

G.Z. Brown is Philip H. Knight Professor of Architecture at the University of Oregon. He has published several books, including *Sun, Wind and Light*, and *Natural Ventilation in Northwest Buildings*, that discuss ventilation, as well as lending his expertise as a consultant on numerous local and national building projects. Professor Brown is the director of the Energy Studies in Buildings Laboratory, which researches how buildings and related transportation and land use systems determine energy/resource use.

Please RSVP to eugene@cascadiagbc.org, or contact Scott at 342-8077.
