

LEED® Canada-CI 1.0 LEED for Commercial Interiors Technical Review Workshop

Vancouver-Wednesday February 27th, 2008
The Westin Bayshore-1606 Bayshore Drive, Vancouver

LEED® Canada-CI for Commercial Interiors (LEED-CI) is a comprehensive, voluntary, market-driven green building rating system for commercial interiors. LEED-CI is an interior design tool used to minimize environmental impacts and maximize occupant comfort and performance of tenant spaces.

LEED-CI addresses performance areas in office, retail, and institutional buildings including:

- o selection of sustainable tenant space;
- o efficiency of water usage;
- o energy performance optimization including lighting and lighting controls;
- o resource utilization for interior building systems and furnishings;
- o indoor environmental quality including comprehensive emissions criteria.

This full-day training session for building tenants and designers provides an in-depth discussion of the LEED-CI credit requirements and certification process. The training will address the basic principles of sustainability as they relate to tenant improvement projects and present the definitive standard for what constitutes a green interior. Highlights include technologies and strategies for achieving LEED credits to optimize performance of leased spaces.

What will you learn?

- o An understanding of green-building design benefits and strategies as they pertain to commercial interiors.
- o Knowledge of how and when to use the LEED Canada-CI rating system for commercial interiors.
- o Information about green building resources to use in your projects.
- o New skills and insights for leveraging green design and LEED into your practice
- o Ability to reposition and differentiate yourself in the marketplace.
- o Solid introduction for continued self-study in preparation for the LEED® Accreditation exam (exam is offered separately from the workshops).

Who should attend?

- o Interior Designers
- o Architects
- o Real estate managers, owners & tenants
- o Facility Managers
- o Product manufacturers
- o Engineers
- o Builders / Contractors
- o Project Managers
- o Consultants & industry stakeholders

Registration Fees
