LEED® -NC 2.2 AP EXAM TRAINING

Gain the qualification to help design teams achieve LEED certification on a variety of building projects.

The workshop will target key information necessary to pass the LEED AP exam, including:

- Credit intent & requirements
- Project team coordination
- LEED process & implementation
- Technical analysis
- Credit synergies & integrated design
- Overview of the exam structure
- Test-taking advice

Participants will be provided with a comprehensive Study Guide Workbook, a 30-question in-class practice exam and an 80-question take-home practice exam. Though helpful, no previous preparation is necessary.

THURSDAY, NOVEMBER 13 | 8:00 AM TO 4:00 PM

David Evans and Associates, 2100 SW River Parkway

Breakfast and lunch will be served. Check-in begins at 7:30 AM
