Greenbuild 2008 Debrief

“Revolutionary Green: Innovations for Global Sustainability.”

As many of you know, the 2008 Greenbuild International Conference and Expo will be held in Boston on November 19-21st. Year-after-year Greenbuild draws in speakers and attendees from all over the world. This event continues to inspire and invoke new ideas within the sustainable building community, and we are excited to announce that this month's ELUG event will feature a debrief discussion of Greenbuild 2008. Kate Costanza, of MG2, will have just arrived back to Bellevue and has offered to share the new and innovative ideas presented at Greenbuild with all of us.

If you are planning to attend Greenbuild 2008 yourself, we still encourage you to attend this ELUG event. We'd love to hear your thoughts and the ideas you took away from the conference!

We hope to see you there! Please RSVP to elug@gly.com

Please RSVP to elug@gly.com ~ continental breakfast is provided
