Ross McKittrick
The environmental crisis:
the devil is in the generalities

Brian Wakelin and Kathy Wardle
Universities in a
climate of change

An OCEAN publication April-May/Avril-Mai 2008

November 13/08, 6pm @
The Granville Island Hotel
(Quarterdeck Room)

A study of 20 Universities from across Canada analyzing five categories by which an educational institution can be measured, will be presented. The panel will then explore what current sustainable initiatives there are in schools and universities, what the obstacles and barriers are and what actions need to be taken on an individual and institutional level.

Panelists:

- Candace Bonfield
Simon Fraser University
- Susan Nesbit
University of British Columbia
- Donald Yen
British Columbia Institute of Technology

Facilitator: Michael Driedger
Busby Perkins+Will
