

Brownfields & Land Revitalization conference 2008

Enhancing Communities through the Integration of Cleanup and Land Use Planning

WASHINGTON STATE CONFERENCE

October 21-22, 2008

Tacoma, Washington

The Washington Department of Ecology's Toxics Cleanup Program invites you to participate in the state's first-ever Brownfields Conference. Network and exchange ideas with over 350 professionals including: Ecology's top cleanup leaders, national academic experts, development professionals, and local government representatives as we explore how cleanup can foster economic vitality and sustainable land-use planning. Among other conference highlights, the University of Washington will present their study on the Washington brownfields program along with their recommendations for possible changes to the program. An interactive discussion will follow the presentation.
