

LEVERAGE YOUR SKILLS
AS AN INTEGRATED DESIGN
PRACTITIONER

INTEGRATED DESIGN PROCESS HOW TO FACILITATE AN IDP

Gain the tools and techniques to effectively lead the collaborative project decision-making process necessary for creating cost-effective and environmentally sound buildings. The Integrated Design Process is a new model for team communication and information sharing that maximizes design goals and benefits, while minimizing project cost and impact.

This workshop takes an in-depth look at the art and practice of facilitating the integrated design process, revealing the purpose of and effective strategies and skills for this role.

Integral to achieving successful sustainable building projects, this training is essential for all building industry professionals who will take a leading role in IDP facilitation.

WHO SHOULD ATTEND

Design professionals that lead or intend to lead IDP sessions and want to most effectively design and facilitate the process.

Check-in begins at 8:00am, workshop is from 8:30am-4:30pm.
Breakfast and lunch will be served.
7 AIA CEUs available.

REGISTRATION*

(note, the early rate applies until two weeks prior to each event)

	early rate	regular rate
Cascadia members	\$295	\$345
Non-members	\$325	\$375
Full time students	\$150

YOU WILL LEARN

- The range of ways that IDP is used in practice, and the benefits and challenges associated with different strategies;
- The fundamentals of pre-charrette preparation and post-charrette follow-up, such as what to communicate to participants and when;
- How to ensure optimum participant performance both during and in between charrettes;
- How to enhance interdisciplinary collaboration – how to maintain the energy and integration throughout the design decision making process;
- How to improve personal facilitation skills to provide confidence in conducting effective charrettes and an IDP; and
- How to enable an organic and synergistic creative process by guiding participants through phases of idea generation and decision-making.
