

# LEED Users Group April Meeting

Learn from peers, share your experiences and grow your understanding of green building practices in British Columbia.

This month's topic:

## Vancouver Convention Centre Case Study

- Six Acre 'living roof' housing 400,000 various indigenous plants
- Marine habitat built into the building foundation
- Seawater heating and cooling systems

These and many other innovations in sustainable design will be discussed by members of the project team. A tour of the building will follow at 5:30 pm.

Friday April 24 noon to 1 p.m. (tour 5:30 to 6:30 p.m.)

Terasen Gas Building, Georgia Room, 1111 Georgia Street

Lunch will be served. Check in begins at 11:50 a.m.

To register online go to <http://vlugapril.eventbrite.com>
