

LEED Core Concepts & Strategies

Presented by the U.S. Green Building Council

This workshop provides essential knowledge of the LEED Rating Systems and sustainable building concepts for those seeking a better understanding of LEED or pursuing GBCI's LEED Green Associate (Tier I) credential. By presenting LEED concepts at the credit category level – across building types and rating systems – and basics on the building certification process, this workshop provides the foundation required for any 300-level LEED education offering. Real project examples help demonstrate and reinforce learning.

LEARNING OBJECTIVES

After completing this course, you will be able to:

- Identify the key components of the LEED Rating System
- Discuss overall LEED Certification process
- Describe the intents and associated concepts of each LEED credit category
- Recognize successful LEED strategies and measurements for achieving credit category goals
- Explain regulations, recognitions and incentives related to each credit category
- Prepare for the LEED Green Associate exam

WHO SHOULD ATTEND?

Any and all industry professionals seeking to use LEED to build green or to provide services to the building industry:

- Design Professionals
- Real Estate Professionals
- Building Owners
- Service Providers
- Product Manufacturers
- Government Officials
- Contractors
- Tenants
- Educators

LEARNING LEVEL

Familiarity with USGBC and LEED, or USGBC's "Green Building Basics and LEED" instructor-led workshop or online program.
