

Green Building Operations & Maintenance: The LEED Implementation Process

Presented by the U.S. Green Building Council

This workshop is intended for building owners, operators and maintenance professionals involved in implementing LEED for Existing Buildings: Operations & Maintenance. It walks through the phases of a typical project, using case examples and implementation strategies throughout to reinforce learning and encourage students to apply knowledge to real-life situations.

Prior Knowledge: Familiarity with both the LEED Rating System and LEED Reference Guide for Existing Buildings: Operations & Maintenance a must. USGBC's *LEED Credit Categories and Intents* strongly recommended.

LEARNING OBJECTIVES

After completing this course, you will be able to:

- Communicate the purpose and benefits of the LEED for Existing Buildings: Operations & Maintenance Rating System
- Successfully develop and implement a plan for LEED certification and recertification
- Facilitate the LEED process with all stakeholders
- Utilize the tools available to support LEED implementation and documentation

WHO SHOULD ATTEND?

Building industry professionals seeking to increase their understanding of the LEED for Existing Buildings: Operations & Maintenance Rating System and green building strategies, benefits and resources.

- Architects
- Designers
- Consultants
- Owners
- Engineers
- Facility Managers
- Contractors
- Manufacturers

LEARNING LEVEL

This is a 300-level course. The 200-level *LEED Credit Categories and Intents* course is strongly recommended as preparation.
