## Sustainable Building Advisor Program

The SBA Program is a 9-month training designed for working professionals wishing to apply sustainable concepts to the buildings they design, develop, and construct. Sessions are presented by expert instructors in an interactive format with hands-on exercises, field trips and cross-sector-applicability.

### PROGRAM OBJECTIVES

- Identify and discuss the key practices of sustainable building
- Establish competencies in applying LEED, Earth Advantage and other relevant criteria or established guidelines
- Analyze the costs and benefits of incorporating sustainable building measures
- Take advantage of financial incentives and technical assistance offered by government, utilities and non-profit organizations
- Work with architects, designers, builders, building operators, and utilities to improve a building's performance
- Establish a sustainable design goal for project development
- Assist in the education and training of staff in sustainable building
