

Living Building User Group May Meeting

Learn from peers, share your experiences and grow your understanding of green building practices in British Columbia.

This month's topic:

Materials and IAQ Prerequisites

- Address the material radius and understanding material density
- Speakers will discuss how they are pursuing these prerequisites in their projects
- Three Living Building Projects

This session will focus on the prerequisites for materials and indoor air quality.

Friday May 29 noon to 1 p.m.

Terasen Gas Building, Georgia Room, 1111 Georgia Street

Lunch will be served. Check in begins at 11:50 a.m.

To register online go to <http://lbugmay.eventbrite.com/>

Registration

	early rate	at the door
Students	\$10	\$20
Cascadia & CaGBC Members	\$10	\$20
Non-member	\$25	\$35

(ends 03.26.09)

Please feel free to join us for a short 20 minute informal networking session before the event begins at noon.

Presenters

Van Dusen Botanical Gardens: A member of the project team will talk about how the Botanical Gardens revitalization is pursuing the site and beauty prerequisites.

Centre for Interactive Research on Sustainability (CIRS): A member of the project team will talk about how this project aims to redefine how we think about and interact with buildings.

The Robert Bateman Centre for Art and the Environment: A member of the project team will discuss how this project aims to enhance the surrounding community.
