TACOMA/OLYMPIA BRANCH MEETING

Fort Lewis 2017 Real Property Master Plan: Creating a Sustainable Community

TOM TOLMAN, LEED AP, ARCHITECT, MASTER PLANNING | FORT LEWIS PUBLIC WORKS

When talking sustainability at Fort Lewis, it's not just about the buildings - greater sustainability hinges on looking at how we plan our facilities. Our greatest opportunities lie in thinking about how buildings fit into neighborhoods, neighborhoods into the installation, installation into the region, and so on. The idea of a sustainable community was a major consideration of the renewed Fort Lewis master plan. Fort Lewis is one of the largest Army installations and a major economic engine for the Puget Sound region. More than 600 people from across the installation participated in an intense visioning session to guide the vision and master plan. Thirteen sustainable neighborhoods were identified in the plan with detailed Area Development Plans (ADPs) targeting goals like walkable neighborhoods and great streets. This presentation will cover the master planning vision, key projects, and how Fort Lewis is measuring sustainable planning.

by Mark Frankel,
New Buildings Institute

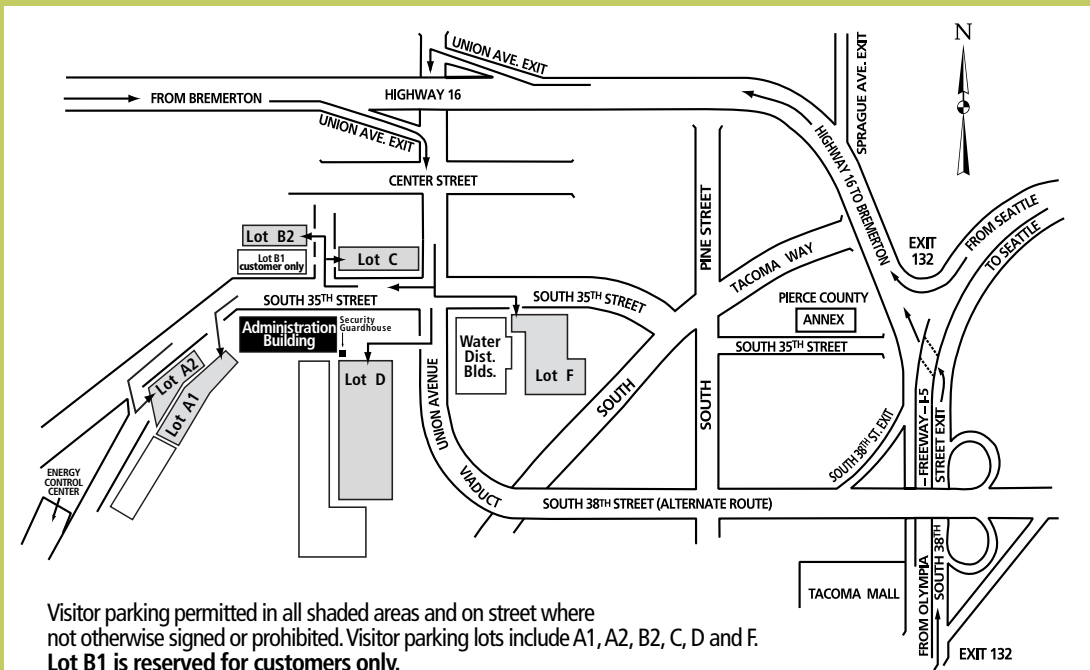

There is no cost to attend the TOLUG meetings. If you are interested in learning about LEED and sustainability topics, and sharing experiences, join us. Light refreshments are served.

Speaker Biography

TOM TOLMAN, LEED AP, ARCHITECT, MASTER PLANNING | FORT LEWIS PUBLIC WORKS

Tom Tolman is a registered architect and LEED accredited professional. He joined the Fort Lewis Master Planning team in May of 2007, with the role of project manager to update the Installation Real Property Master Plan as well as leader of the Fort Lewis Sustainable Community Team. Prior to coming to Fort Lewis, he worked as an architect at Seattle District, US Army Corps of Engineers, focusing on sustainable design and advanced building visualization techniques. Tom graduated from the University of Idaho with a Master of Architecture degree highlighted by graduate work in sustainable community planning.
