

Towns for Tomorrow — Urban Revitalization for Sustainable Growth

**October 19,
9 am–4 pm**

\$175 (GST included).

**Non-profit
organizations/
students: \$100**

CITY 127

Venue has been changed
to: SFU Vancouver
Harbour Centre building
515 West Hastings Street
Vancouver, BC
*(Note: this is three blocks
from the Vancouver
Convention Centre.)*

Sustainability has three pillars — environmental, economic, social — and a good heritage strategy supports every one of them. This event explores how the revitalization of our existing built environment can help to achieve smart growth, conserve energy and resources, and add to the cultural and economic health of a community. Speakers and workshops will illustrate how the revitalization of ‘old towns’ is helping to achieve sustainable communities.

This course is a
shoulder event to the
Gaining Ground/Resilient
Cities conference on
October 20–22, 2009.

Speakers include: **John Knott**, President and co-founder, Noisette Company. Noisette is the 3,000-acre historic centre of North Charleston, South Carolina, which is being re-shaped into a sustainable community; **Richard Linzey**, Acting Manager, Heritage Programs, Heritage Branch, Ministry of Tourism, Culture and the Arts; **Shana Johnstone**, Manager, Smart Growth on the Ground (SGOG), Smart Growth BC; **Steve Barber**, Heritage Planner, Planning and Development Department, City of Victoria; **Liz Dunn**, Consulting Director, Preservation Green Lab, National Trust for Historic Preservation; and others.

Sponsored by the Heritage Branch, Ministry of Tourism, Culture and the Arts.
