REGION GREEN BUILDING COUNCIL
EMERGING GREEN BUILDERS

Emerging Green Builders Victoria presents:

Natural Capitalism

Creating The Next Industrial Revolution

Industrial Capitalism recognizes only money and goods as capital, according little value to people and nature. Natural Capitalism, on the other hand, extends that recognition to include human and natural capital. Join us to learn how investing in people and nature alongside money and goods can lead to greater prosperity and a sustainable society.

- 90 minute video presentation followed by discussion and social time -
