

Eastside LEED Users Group (ELUG)

Supporting Knowledge and Education of LEED Credits and Sustainable Design & Building Processes

Tuesday, January 19th
7.30 AM – 9.00 AM

GLY Construction
15 Lake Bellevue Drive, Suite 200
Bellevue, WA 98005

Happy New Year!

Cascadia Welcome and LEED Credentialing

Most people have heard of Cascadia or seen their logo, but what is Cascadia all about? Join us this month as we start the new year with a welcome from Cascadia's Washington State Director Joel Sisolak. He will usher us into 2010 with an introduction to Cascadia's vision, signal issues, programs and important advocacy items on the agenda for the coming year.

Cassandra Delaune with O'Brien and Company will then lead us in a discussion on LEED credentialing and credentialing maintenance. All of the changes over the past year have left many of us questioning what we really need to know about the new accreditation process and the GBCI Continuing Education Credits. Cassandra will bring us up to speed on these issues and explain what it means to be a LEED Green Associate versus a LEED AP or LEED Fellow. Join us this month to learn the necessary steps to achieve or maintain your LEED Credential. We hope to see you there!

Joel Sisolak, LEED AP, Cascadia Washington State Director

Joel joined Cascadia in 2008 where he continues his work of 15 years in the non-profit sector promoting social and environmental sustainability. Prior to joining Cascadia, he directed an environmental organization that partnered with local public and private agencies to protect King County's primary drinking water supply. He's also served in various consulting and leadership roles with organizations promoting affordable housing, habitat conservation, and the arts. Joel holds a masters of urban planning from the University of Washington with an emphasis on sustainable land use and infrastructure.

Cassandra Delaune, LEED AP BD+C, O'Brien & Company

Cassandra coordinates O'Brien & Companies educational division, the Sustainable Development Training Institute, which provides educational programs for companies and organizations as well as educational workshops that O'Brien & Company delivers on a variety of topics. An experienced presenter Cassandra's expertise ranges from residential energy conservation to finance and budgeting to the LEED AP credentialing process.
