

LEED Canada EB:O&M Technical Review

DATE	Tuesday, November 23 rd , 2010
DESCRIPTION	<p>This one day interactive workshop provides a technical review of the LEED Canada for Existing Buildings: Operations and Maintenance Rating System. Technologies and strategies that can assist in achieving credits are discussed, and participants are given the opportunity to begin to consider the synergies between various credits. Case studies have been created to assist participants in applying their learning in relation to a real project scenario.</p> <p>*Any CaGBC workshop will meet eligibility requirements for the Green Associate exam.</p>
TARGET AUDIENCE	<p>The target audience for this workshop is individuals who wish to become more familiar with the EB:O&M Rating System. This may include building owners and operators, maintenance professionals, as well as any other individual working on projects seeking certification under LEED Canada for EB:O&M. Individuals studying for the GBCI's Operations and Maintenance (O&M) credential may find this a useful course to attend as part of their study plan.</p>
WORKSHOP OBJECTIVES	<ul style="list-style-type: none">• Communicate the purpose and benefits of the LEED Canada for Existing Buildings: Operations & Maintenance (Canada EB:O&M) rating system• Begin to develop and implement a plan for LEED certification and recertification• Describe the intents and requirements of each LEED Canada EB:O&M credit
CE HOURS	Credential Maintenance Units • 7 GBCI CE Hours
