

LEED Canada Core Concepts & Strategies Workshop

DATE	Tuesday, September 28 th , 2010
DESCRIPTION	<p>This full-day workshop provides essential knowledge of the Leadership in Energy and Environmental Design (LEED) Rating Systems and sustainable building concepts. This workshop presents LEED concepts at the credit category level – across building types and rating systems – and the basics on the LEED certification process. It provides the foundation required for more advanced LEED training. Project examples help demonstrate and reinforce learning.</p> <p>*Any CaGBC workshop will meet eligibility requirements for the Green Associate exam.</p>
TARGET AUDIENCE	<p>The target audience for this workshop is individuals seeking a better understanding of LEED. This may include:</p> <ul style="list-style-type: none">• Architects• Interior Designers• Nonprofit Organization Representatives• Product Manufacturers• Facility Managers• Engineers• Building Owners/ Developers• Industry Stakeholders• Real Estate Agents• Others interested in LEED and green building
WORKSHOP OBJECTIVES	<p>Individuals studying for the GBCI's Green Associate (GA) credential may find this a useful workshop to attend as part of their study plan.</p> <ul style="list-style-type: none">• Identify the key components of the LEED rating system• Discuss the overall LEED certification process• Describe the intents, general requirements and associated concepts of each LEED credit category• Recognize successful LEED strategies and measures for achieving credit category goals• Explain regulations, recognitions and incentives related to each credit category
